

# Summary Feedback

## Chest pain in Emergency Department (04<sup>th</sup> October 2020)

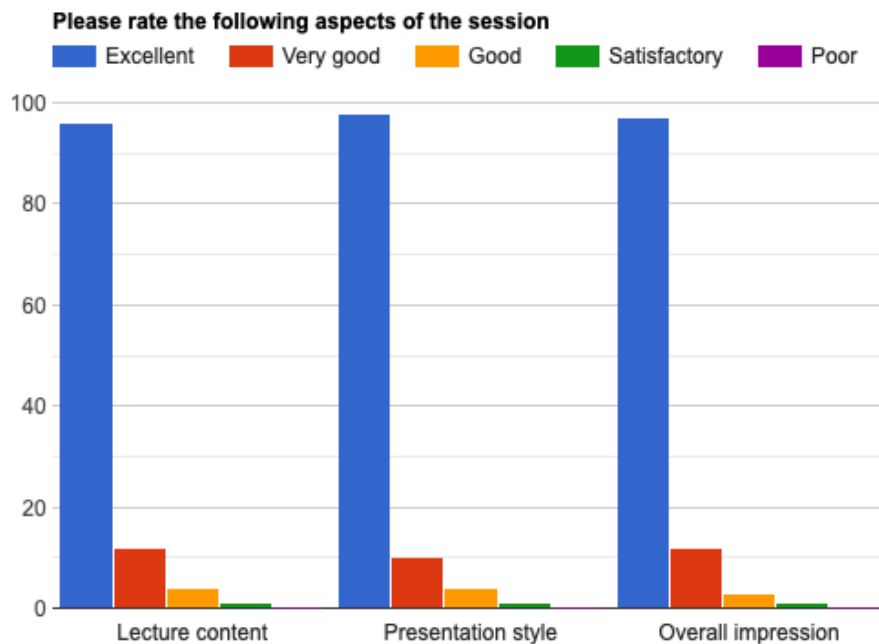

Delivered By: Dr. Ben Ariff

### Summary Points:

- Talk Time: 01 hour teaching time
- Total Attendees: 169
- Total feedback received: 113

Participants from 18 Countries: (including Australia, Bahamas, Egypt, India, Iraq, Kenya, Malaysia, Nigeria, Oman, Pakistan, Philippines, Saudi Arabia, Sudan, UAE, UK, Ukraine, USA, Yemen).

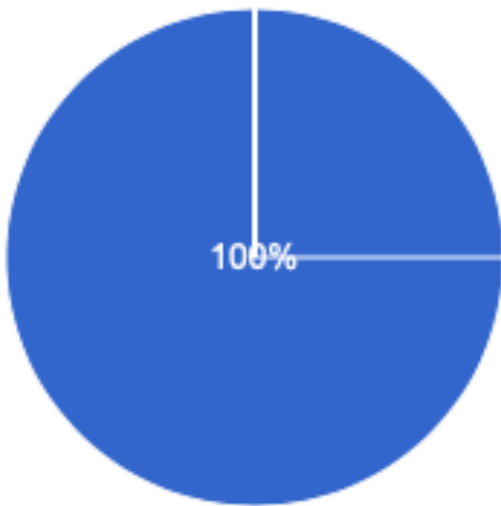

### 1. Please rate the following aspect of the course:

1. Did you find this session useful for exam preparation?

**Did you find it useful**  
**113 responses**

- Yes
- No

2. What aspects of this course were most useful or valuable?

- |   |                |
|---|----------------|
| • Cardiac ct  | Yemen          |
| • Explanation about cardiac imaging                                 | Pakistan       |
| • All aspects   | Pakistan       |
| • The topic is quite tough because we are not using this in routine | Pakistan       |
| • Practical points about basic acquiring images                     | India          |
| • technical aspects   | United Kingdom |
| • ALL   | PAKISTAN       |
| • Cardiac CT  | Pakistan       |
| • All   | Pakistan       |
| • Case-based learning, with theory in-between.                      | United Kingdom |

- 
- Image guided teaching United Kingdom
- Cardiac gating concept India
- aortic ct pakistan
- Cases discussed with images. Pakistan
- We need to have such lectures Pakistan
- Good cases Pakistan
- The presenter and cases Pakistan
- The lecture was relevant to daily practice, practical, and easy to understand Indonesia
- Technical aspect of vascular imaging discussed in the lecture. Philippines
- Everything Saudi Arabia
- Cases India
- Imaging protocol Pakistan
- CT protocol Pakistan
- Discussion India
- Case based France
- Good one CMH PAKISTAN
- very informative lecture PAKISTAN
- images Pakistan
- Good Pakistan
- Cases Oman
- excellent iraq
- Content Pakistan
- All PAKISTAN
- Explained in clinical case context Pakistan
- Such a difficult topic was explained in a very simple manner Pakistan
- retrospective vs prospective gating India
- The variety of cases in acute chest conditions rather than the common ones Egypt
- Cases India
- made a complex topic very simple. Interactive. United Kingdom
- Details Pakistan
- cases selection type yemen
- Teaching style & presentation. Sudan
- clear and to the point uk
- Very detailed and relevant lecture. Switzerland
- Interactive cases Uk
- All Kenya
- Ct technique and cases well explained Malaysia
- All aspects were valuable Pakistan
- Case based lecture great enjoyed alot Pakistan
- Aortic dissection BTUH
- knowledge Malaysia
- All aspect of the lecture Bahamas
- Everything United States
- Basics on Cardiac CT
- Basic search patterns Singapore
- Amazing lecture India
- contents Pakistan
- Cases and discussion around it United Kingdom
- Amazing all aspects Egypt

- All Yemen
- All Pakistan
- Content Pakistan
- excellent India
- Technique and quality of images Pakistan
- Nice important session Oman
- Aortic valve thickening and endocarditis cases UK
- The importance of gated CTs in the diagnosis of type A dissection. United Kingdom
- Cases! Philippines
- Concept of triple rule out Pakistan
- Great build up from technique to case based examples Kenya
- Really liked the case approached presentation, talking about clinical dilemmas as well as in choosing imaging. Also the interaction with questions was really nice to involve the audience United Kingdom
- CT Gating United Kingdom
- All of it Pakistan
- Explanation & cases Pakistan
- The technique United Kingdom
- Lecture didn't do justice to the topic. Only cardiac related cases were presented. Too specialized and narrow. This topic cannot be covered in one hour session as it is too specialized. Small number of very technical cases. Pakistan
- Understanding through images was most valuable. Oman
- Fantastic session. Really enjoyed and would be grateful for another session Nottingham
- Case Review was most useful. Absolutely great. Please take another session including Cardiac MRI. India
- Principles of cardiac imaging, cases. United Kingdom
- live case session India
- pathologies Pakistan
- Great cases. Loved interactive format UK
- Cardiac imaging Saudia arabia
- aortic root abscess Botswana
- Fantastic real time review and manipulation of CT images with planar re-formatting which was very useful thank you. UK
- All Pakistan
- The cases with correlation with cardiac imaging Philippines
- Cardiac CT UK
- The interactive sessions and case based teaching uk  
Norwich  
Radiology  
Academy
- Interactive case-based session was very useful. explained concepts very well and a good pace. Philippines
- The whole lecture was valuable specially for me since our institution since will just be starting Cardiac Ct this year Pakistan
- Learnt new stuff as we do not report on cardiac CT in our setup India
- I liked that he went from the basics. Really good cases. Pakistan
- Elaborate, concise Nigeria
- The presentation of the CT images and differential diagnosis UK
- Discussion of cases UAE
- very informative Kenya
- The technique/protocols were very useful Pakistan
- All the cases and the interactive part

- 
- Different cases Pakistan
- Use of pacs images Nigeria
- All Pakistan
- How to evaluate Acute Aortic Syndrome Nigeria
- The pathogenesis of dissections United kingdom
- CT angiography technical aspects and the not so commonly seen abnormalities we got familiar with by the presentation UAE
- almost everything was new to me so much helpful Pakistan
- Different and very specialized for me being a general radiologist...eye opener Pakistan
- Whole Presentation with the Q&A session Ukraine
- The first half in particular was very good.Very clear good quality images. Uk
- Every topic that was discussed were useful Philippines
- Interesting mix of cases United Kingdom
- Discussion on Triple rule out and aortic valve thickening, when to suspect bicuspid valve. United Kingdom

### 3. What could be improved?

- more sessions Yemen
- More lectures Pakistan
- I have not received my recent certificate of ultrasound and dye session.please look in to this. Pakistan
- More lecs should be arranges Pakistan
- Time India
- GREAT KNOWLEDGE PAKISTAN
- Bit precise Pakistan
- We need recordings for correlation with our daily ward work Pakistan
- Must be downloadable Saudi Arabia
- having a syllabus and recording available France
- Good Pakistan
- he is very fast iraq
- increase duration PAKISTAN
- More sessions from him Pakistan
- lecture should be divided in two part series India
- another sesison United Kingdom
- Polls are better to be given live Sudan
- another session would be good uk
- Need more cases Kenya
- More cases and second session Malaysia
- Need more sessions on it Pakistan
- Some internet fluctuations. United States
- Further cases. Search patterns and pearls. Singapore
- speed Pakistan
- It would be useful to have another session United Kingdom
- Please we need more with this lecturer Egypt
- More sessions Yamen

- Already v comprehensive Pakistan
- Need another session Kenya
- Voice Pakistan
- keep it up Pakistan
- More cases Uk
- Use of advanced protocol Saudia arabia
- Please do continue with interactive questions in the presentation as this was useful UK
- Another session on this topic Pakistan
- Another session/s in future. UK
- Another session  
The lecture was a bit fast paced, it was difficult for me to follow at times, i'm not used to cardiac imaging so it was a bit challenging for me. uk
- Just keep it up Pakistan
- Start with basics of cardiac ct reporting.  
This session assumed we are familiar with it UK
- all good UAE
- Increase the timing to 2 hours so that more cases can be tackled. Kenya
- More time and more sessions like that Pakistan
- Speed-too fast United kingdom
- Recording if available would be of much help Pakistan
- Plz arrange more sessions Pakistan
- More time if possible Ukraine
- Talk a little slower.The second half became a bit complicated.I did learn a lot. Uk
- The way of discussion, presentation, slides and videos are all magnificent Philippines
- I we can get our hands on recorded version United Kingdom

#### 4. Overall impression

- Excellent lecture Yemen
- Excellent Pakistan
- Very good India
- EXCELLENT JOB PAKISTAN
- V good Pakistan
- Very good Pakistan
- Excellent Saudi Arabia
- Excellent France
- V good Pakistan
- good iraq
- Excellent PAKISTAN
- Excellent..well done Pakistan
- excellent India
- Great talk United Kingdom
- Extremely valuable presentation Sudan
- good uk
- Very good Kenya
- Excellent Malaysia
- Great experience Pakistan
- Excellent United States

- - excellent talk
  - Interactive session was very useful session with cases
  - Thanks
  - Excellent
  - Excellent
  - EXCELLENT PRESENTATION AND SPEAKER
  - Excellent
  - Excellent
  - Highly recommended. Thank you.
  - Excellent
  - More please
  - very good lecture
  - Great
  - Very good but was a bit lost with sequences and views for reporting.  
Another session will be appreciated but from basics to advanced.  
Also chest / respiratory emergencies to be addressed.  
Thanks
  - Very Nice
  - Excellent
  - Excellent. Thanks
  - Very insightful, a bit too technical for me.
  - Excellent in all respects...
  - Excellent
  - Very useful .If there is a second session I would definitely log in.
  - Legendary presentation
  - well delivered and super informative
- Pakistan
